

JOB DESCRIPTION

Position	Junior Software Development Engineer
	Full-time
Direct Report to	Head of Development
Incumbent	vacant
Date	immediately

Job Summary

We are looking for a junior software developer with experience of .NET frameworks, databases, development and testing to join our small development team in Zug, Switzerland. Ideally, you have one or two years' experience in software development, preferably in small or medium sized companies. The role is line-managed by the Head of Development, with priorities set by the CEO, CTO and project-specific stakeholders.

Education and Experience

Requirements

- .NET Development with C# (F# bonus)
- Knowledge with web development and JavaScript
- Understanding of SQL and databases
- Experience in agile development projects, including testing
- Familiar with development tools, such as Visual Studio and Git
- Team player
- Attention to detail
- Fluent English, both written and spoken

Responsibilities

- Maintain legacy code (Java, C#, VBA); bug fixing and improvements
- Undertake new development in F#, TypeScript and React
- Provide technical documentation
- Assist IT Support with PowerShell scripts
- Support internal business users

You can expect:

- Working in the commodity trading sector
- Team spirit and team work
- Opportunity to learn new technologies: F#, TypeScript, React
